E-Governance policy

20-06-2022

Every educational institution needs to have a strong E-governance policy, a good governance document, and excellent governance activities if it wants to be respected on a national and international level. To retain and strengthen its position as one of the nations institutes of excellence among the higher education institutions, BIPS has produced a first-rate e-governance document and has been putting forth a number of exceptional e-governance initiatives. Governance must be made inclusive, participatory, responsible, and transparent for the system to function effectively.

Objectives

1. Introduce e-governance into a number of organizational departments.
2. To increase operational effectiveness.,
3. To promote accountability and transparency.
4. To stop using paper for office management.,
5. To improve communication between the numerous departments of the institute that is all connected to the internet.
6. To make information is readily available.

Policy:

E-Governance policy is implemented in the following areas

1. Administration
2. Finance and accounts
3. Student admission and support
4. Examination

E-Governance must be followed in order to create an honest and effective governance system within the institution.

Website:

The website must be operational, reflect the actions of the organization, and provide users with quick access to information on all activities, modifications, and other crucial information. The institution needs a service provider and a system administrator for maintaining the website and updating information. The website link of college website is bipswgl.org.in

Student admissions and accounts

Software winnow.com (Winnou systems and Services (P) Limited) is used to manage accounting and financing. To guarantee transaction confidentiality, appropriate security precautions should be taken. The software that is now in use needs to be regularly updated, and existing employees must be taught.

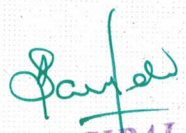

Library

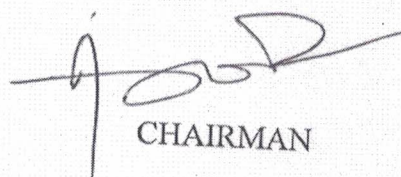

The college has a sizable library with more e-learning resources for the advantage of students. Students and teachers are also included. To easily access library services, one must use its web-based services. In a similar spirit, the library committee has recommended employing modern e-sources including DELNET, CLINIREX, NDL, e-Shodh Sindhu and PDF drive E-books for learning materials and periodicals.

Examinations

BIPS is associated with Kakatiya University. Therefore, all exams are administered in accordance with the KU's notifications. The KU website will be used for exam registrations, hall tickets, and mark uploading. Under the direction of the principal, the examination branch is in charge of overseeing the entire examination process. While handling examinations, secrecy and confidentiality are maintained, and work will be finished with great care and attention. For the purpose of tracking student information, attendance, and internal grades, the college maintains a private website called On Edu.
